

InsightBee Procurement Intelligence by Evalueserve recognized among “20 Most Promising Procurement Solution Providers 2016”

Raleigh, US, 21 December 2016: InsightBee Procurement Intelligence by Evalueserve has been recognized as one of the “20 Most Promising Procurement Solution Providers 2016.” The platform is designed to help procurement teams set insight-driven sourcing strategies and proactively identify risks and key trends. With its smart technology and cloud-based access, the tool is a disruptor for the industry, since it allows real-time access to data. “It’s a great honor to select Evalueserve as one of the 20 Most Promising Procurement Solution Providers 2016,” said Jeevan George, Managing Editor of CIOReview. He added, “Evalueserve provides an easy-to-use, advanced platform, delivering action-oriented insights to procurements teams around the world and across industries.”

“We are very happy to see that our platform has received this recognition after only a short time in the market. This confirms our thinking that in today’s world, procurement professionals need comprehensive and up-to-date information, combined with proactive insights, in order to make smart sourcing decisions,” said Michael Foley, Managing Director, Intelligence Platforms. He also quoted, “Having the needed information at their fingertips and a system that sends alerts about developing risks and trends, allows procurement teams to act faster and focus on where their efforts can have the most impact. Our mind+machine solution approach, which combines experienced procurement analysts with advanced technology, is helping procurement intelligence get a whole lot smarter and also creating a lot of satisfied clients.”

About Evalueserve

Evalueserve is a global professional services provider offering research, analytics, and data management services. We are powered by mind+machine – a unique combination of human expertise and best-in-class technologies that use smart algorithms to simplify key tasks. This approach enables us to design and manage processes that can generate and harness insights on a large scale, significantly cutting costs and timescales and helping businesses that partner with us to overtake the competition.
