Cisco	2 news items
<p>Cisco Introduces New Security Solutions for Mobile Operators</p> <p>Cisco predicts there will be 26.3 billion networked devices globally in 2020, up from 16.3 billion in 2015. Updating security to protect the content and data running on these devices has become a new mandate for mobile service providers as they prepare for 5G, making it necessary to deploy security solutions.</p>	
<p>Cisco targets India with strategic digital solutions across sectors</p> <p>Global networking heavyweight Cisco Ltd. is making several strategic moves in India to strengthen its market in India. The company has announced a tie-up with Bengaluru-based Narayana Health (NH), a multi-specialty tertiary level healthcare service...</p>	
Ford	1 news item
<p>Ford Sees the Value of Collaborating with Tech Companies</p> <p>Ford Motor (F) is poised to accelerate the testing of autonomous vehicles by tripling its testing vehicle fleet size in 2016 and again in 2017. This should help Ford get closer to its ambitious plan of fully autonomous vehicle mass-production by 2021.</p>	

Microsoft
