

Corporate and Professional Services (CaPS)

Evalueserve's Corporates and Professional Services practice offers continuous learning support for overall knowledge enhancement of employees across levels. The division offers many learning interventions that focus on holistic development of employees by building research, analytical, presentation, process optimization, market understanding, and technical skills.

Early-stage development begins with the **Campus Hire Induction Boot Camp**, which offers a steep learning curve by up-skilling fresh hires across key job-related skills, including but not limited to, research techniques, company financial performance analysis, and reporting writing. This program is conducted through a combination of instructor-led learning and OJT. The OJT program offers participants an opportunity to apply learning from classroom to real-life scenarios in a well-guided environment.

Key program offerings include:

- Primary and Secondary Research Skills
- Rapid Research
- Financial Statement Analysis
- Essentials of Content Structuring
- Report Writing
- Databases

The boot camp program is spread over 180 hours.

The Corporates and Professional Services practice also offers role- and need-based learning interventions for overall knowledge enhancement. These include trainings focusing on competitive intelligence, market intelligence, procurement Intelligence, sales enablement, strategic insights, and technical and analytical tools (such as VBA and Power BI). Knowledge sharing sessions are also offered for key industry focus areas including — logistics, automotive, ICT, consumer goods, procurement, industrial goods, energy, chemicals and utilities.
